

# Temperature sensor Basic NTC 10K

# Temperature sensor for wall

## Technical specifications:

Ambient temperature: -20 - +80°C, non-condensing air  
 Accuracy temperature: 2%  
 Enclosure: IP20 - Wet rooms zone 3  
 Dimensions: 33x85x85cm  
 Sensor type: NTC 10K

T(°C)	Kohm
-20	95.367
-10	54.525
0	32.371
+10	19.821
+15	15.672
+20	12.471
+22	11.402
+25	10.000
+30	8.045
+40	5.313
+50	3.588
+60	2.474
+70	1.741
+80	1.248

## Description:

Temperature sensor for wall mounting. Measures the temperature in a room.

To be used for equipment with NTC input.

## Adjustment:

N/A

## Mounting:

The temperature sensor should not be mounted in a location where it is exposed to direct sunlight, draft, other sources of heat (eg. tv) etc.
